

**CS**™ Acrovyn by Design®  
*Protection Transformed*

Studies have proven that art is highly impactful and can evoke a range of emotions, both positive and negative. When displayed as full wall murals in places such as hospitals, corporate offices, schools and transportation terminals, it can enhance one's overall personal experience.

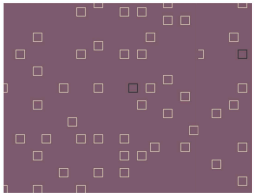

Acrovyn by Design® wall protection gives designers unlimited freedom to make their visions reality. Photography, logos, patterns and more can be printed behind durable, PVC-free Acrovyn® without concern for damage to the graphic or the wall.

## Product Specs

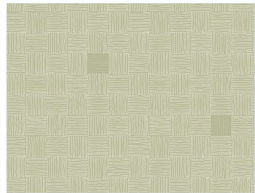

- PVC-free .040" thick 4'x8' or 4'x10' sheets
- Impact-, bacteria- and fungi-resistant
- Meets Class A fire criteria (ASTM E84)
- Meets CA 01350 code for improving interior air quality
- Same care, maintenance and installation as Acrovyn.

## Pattern Collection

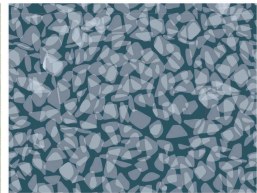

Wallcovering-inspired, standard patterns were created by healthcare designers to coordinate with other interior products.
