

TerraThin

Flexible Stone Veneer

Real slate without the weight.

TerraThin is a real stone alternative to heavy and expensive solid slate slab. Its light weight enables designers to expand their application options.

Key Advantages

LIGHT WEIGHT SHEET

Generating savings in transport, handling, and installation compared to thicker solid slab panels

MADE WITH REAL STONE

Each one-of-a-kind panel comes to life straight from the quarry

EASY INSTALLATION

Manageable tile sizes allow for simple installation with a standard construction adhesive

EASY TO MAINTAIN

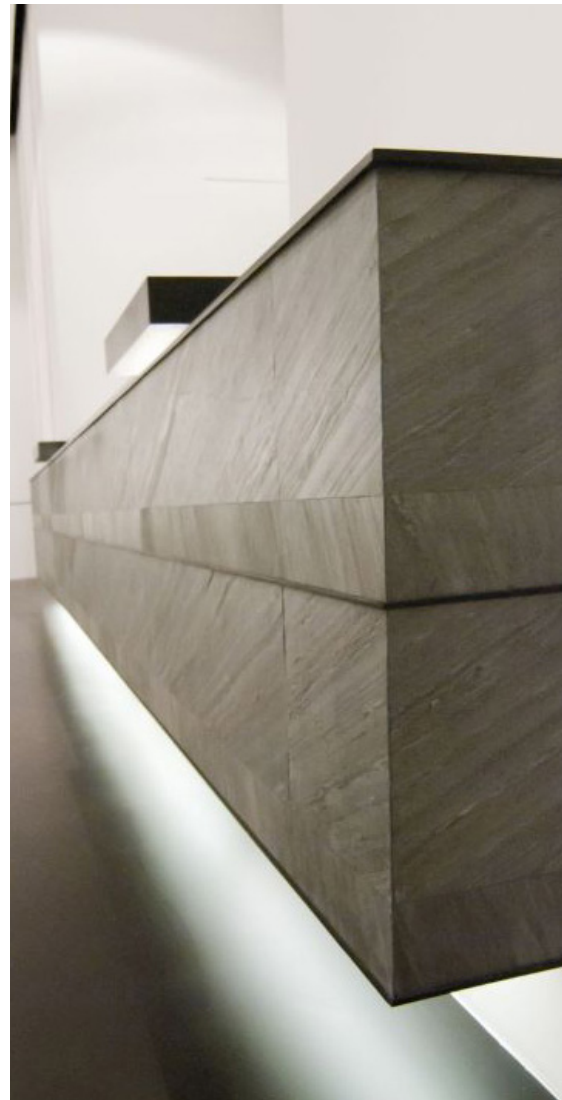

Requires minimal maintenance with a typical surface sealant

WATERPROOF

Finished with waterproof opaque backing that enables more application possibilities

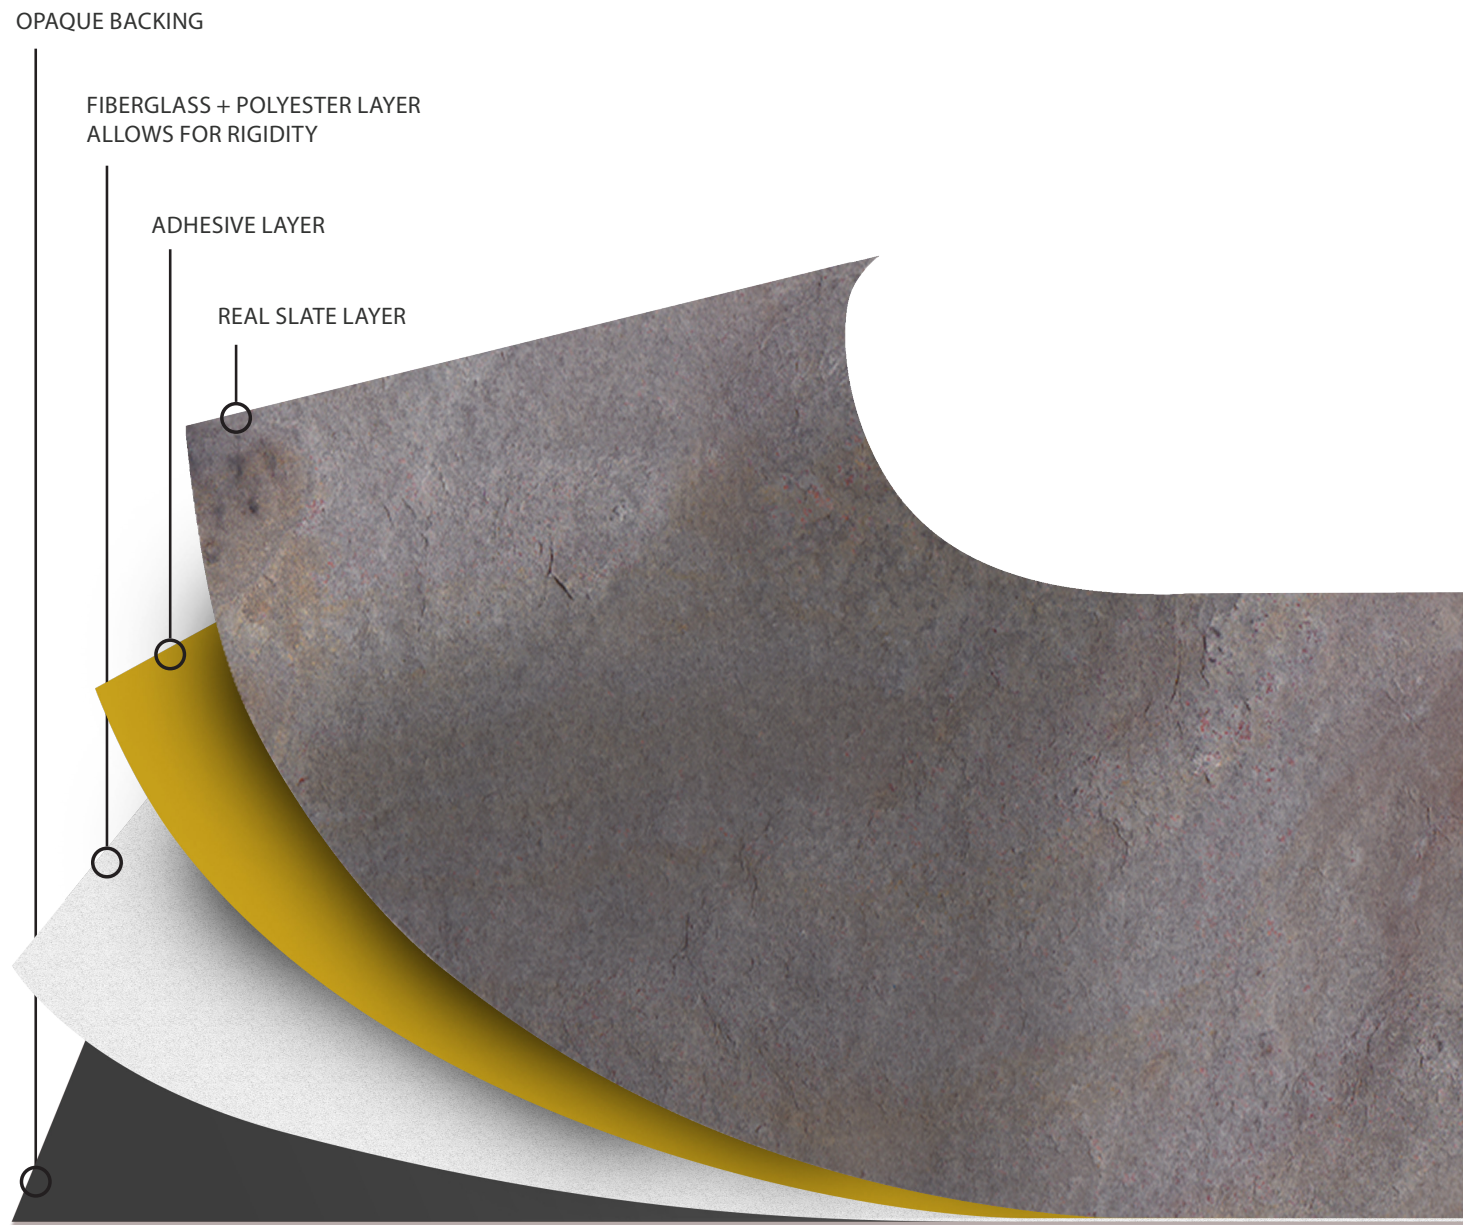

DURABLE

Waterproof sheet can handle extreme temperature changes without cracking

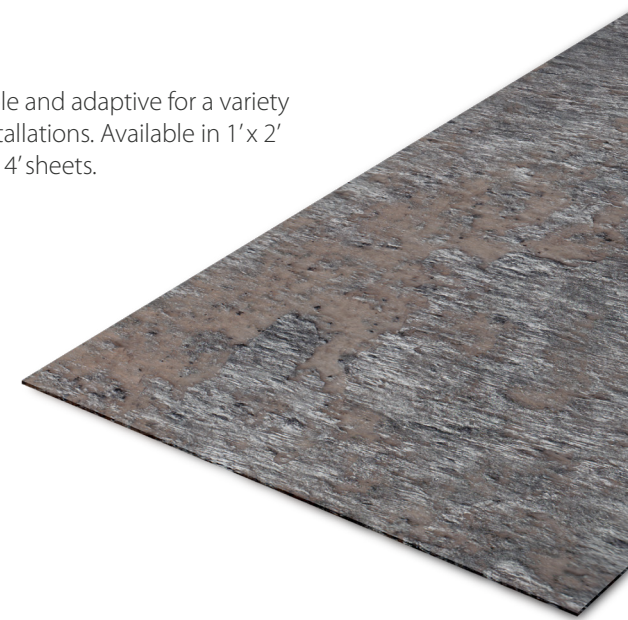

Slate Sheet Composition

Ultra-light weight of less than 0.5 lbs/sf and 1-2 mm thick.

STANDARD SHEETS

Flexible and adaptive for a variety of installations. Available in 1' x 2' or 2' x 4' sheets.

PANELS

3/8" EDGE-WRAPPED PANEL

Matched stone wraps the edge of MDF panels.

3/8" RAW EDGE PANEL

Surface-mounted panels are designed to be trimmed with picture frame or thin trim options.
